## Insider's Portuguese Camino, Porto to Santiago

A 10-night trip covering the last 127km of the Portuguese Way  
Suitable for walkers of all abilities

September 7-17, 2026

# Introduction

Beginning at the UNESCO World Heritage site of Porto, we visit the Sé Cathedral to learn of the history and importance of the Portuguese Way and just how the Jacobean culture influenced this route over the centuries.

We cross from Portugal to Spain, setting out from one of the true gems of military architecture, the fortress of Valença do Minho, to tread in the lush green corridor of Rías Baixas, home of the famous white grape varietal Albariño.

Our journey will follow parts of the 1st century Roman road, Via XIX, linking Braga in northern Portugal to Astoria in León. Here we discover contrasts of rural life with natural landscapes, hot springs, forests, paths, medieval bridges, Roman milestones, crossroads, rivers and oak groves.

We walk through towns with fascinating history such as Tui, Pontevedra, Caldas de Reis and Padrón. and finish our journey in Santiago de Compostela.

Pilgrims can expect to walk approximately 15km (9.5 miles) per day for seven consecutive days plus one first shorter day with bus support provided.

## Your Insider's Camino Host

### GEORGIE WINGFIELD-HAYES

Georgie is a British biologist and writer who lives in Spain, a country for which she has had a lifelong love: from the language, people and culture; to the history, landscapes and nature. When she's not leading pilgrimages on the Camino de Santiago, you can find her in the mountains of Sanabria, in northwestern Spain, an area famous for its wild landscapes and resident wolf population. From there she writes about human-nature relations. Georgia first walked the Camino in 2006, which was also the year she first guided groups along the trail. She never tires of the privilege of accompanying pilgrims on their own special journey.

### MARY KAY MAAS

Originally from Wisconsin, USA, Mary Kay walked her first Camino 20 years ago with her mom, the year she studied abroad in Spain. She fell in love that year and has been living in Oviedo, Spain ever since. She has been guiding Spanish youth groups to the US for over 10 years and started guiding groups on the Camino in 2023. When she's not guiding, she can be found teaching English online, writing and singing songs, and driving her 16 and 18-year-old sons to soccer practice.
